

STS EXCELLENCE AWARD 2023

STS INNOVATION AWARD 2023

SUPPORTED BY

CALL FOR NOMINATIONS

For the fourth time, the STS will again confer 2 awards for 2023: the **STS Excellence Award**, endowed with CHF 20000.- and the **STS Innovation Award** with CHF 10000.-.

An independent jury of experts will elect 2 award winners among eligible candidates who may be surgeons, physicians or other persons active in translational transplantation research as well as clinical practice within Switzerland.

The **STS Excellence Award** shall be conferred to a person in the middle of his/her career, below 55 years of age, whereas the **STS Innovation Award** shall be conferred to a younger candidate, \leq 40 years of age, with outstanding future potential.

Based on age limits, candidates will automatically qualify for the *STS Excellence Award* only or for both the *STS Innovation* and the *STS Excellence Award*. The same rules otherwise apply for all candidates (see online rules) except that criteria

10.b), 10.c) and 10.d) of these rules will be double-weighted for the evaluation of the *STS Innovation Award*.

The winners will be awarded as the representatives of a research group or project for outstanding scientific and/or clinical achievements.

Nominations must be sent before **October 15, 2023** through the website www.swisstransplantationociety.com.

We await your nomination!

With best regards

Prof. Hendrik Tevæearai
President of the STS

PD Dr. Patrizia Amico
Chair of the Scientific Committee
